- Subject changed from WebDav multiple user support to Generate Apache config Files with etc plugin
- Needs Doc changed from Yes to No
- Needs Merging changed from Yes to No

Hello Michael. We have gone over the possibilities of adding multiple webdav user support. However right now we have decided to not expose this and we can maybe in the future look towards this and weigh the pros and cons.

This ticket right now tracks porting of generation of apache config files from legacy code to Middlewared.

#18 - 02/28/2019 09:12 AM - Zackary Welch

- Status changed from *Ready for Testing* to *Passed Testing*

- Needs QA changed from *Yes* to *No*

Wevdav works, and I was able to switch between http and https, with different types of authentication.
