

PCBSD - Feature #16608

Network Manager to allow stored preconfigured networks to be selectable for Ethernet connections

08/01/2016 10:04 AM - Matthew Midgett

Status:	Screened	Estimated time:	0.00 hour
Priority:	Important		
Assignee:	Ken Moore		
Category:	Network Manager		
Target version:	11.0-RELEASE		
Description			
Would like the ability to preconfigure networks and apply them with a drop down or scrollable list. Each network could have more than one ip address also.
