

## PCBSD - Bug #17293

### TrueOS boot failes under qemu-kvm

09/04/2016 11:50 PM - Eduard Stefes

<b>Status:</b>	Unscreened
<b>Priority:</b>	No priority
<b>Assignee:</b>	
<b>Category:</b>	TrueOS
<b>Target version:</b>	
<b>Seen in:</b>	11.0-CURRENT

#### Description

trying to boot the newest TrueOS under qemu-kvm, then select the option **xorg** results in Xorg **Fatal server error** (see the screenshot).

The Xorg Server tries to restart several times and after 20-40 seconds this succeeds. During this time it is not possible to interact with the machine and it looks like it hanged.
