

FreeNAS - Feature #17907

Add ability to sign CSRs using internal FreeNAS CA

09/30/2016 08:00 AM - Brandon S

Status: Resolved	Estimated time: 0.00 hour
Priority: Nice to have	
Assignee: Nikola Gigic	
Category: Middleware	
Target version: 11.1-BETA1	
Severity: New	Needs Merging: Yes
Reason for Closing:	Needs Automation: No
Reason for Blocked:	Support Suite Ticket: n/a
Needs QA: No	Hardware Configuration:
Needs Doc: Yes	

Description

Can a a button be added under the CAs tab for an internal CA to allow it to sign a CSR. Once signed, a public key for the client would be added to the Certificates tab for export. This would be for scenarios where you cannot easily replace a private key for a client so the preferred process uses CSR's instead.

- Target version changed from 11.1 to 11.2-BETA1

Nikola, this may require some investigation about certificates on your end. There is no immediate priority though.
