Description			
As Corral had, it was nice to see the change log (especially for nightlies whether to upgrade or not) and release notes in the Update pane. If we could add that to the old 9.10 and/or new 9.10 interface that'd be appreciated. Beats having to try and find it in the Index of/ page. Thanks.

Sorry, my bad on that with the old UI, would it still be possible to put it within the normal pane instead of a popup?
The new UI I click check now as well and it does not show.

We are not making any structural changes in the old UI.
I'll redirect this bug to the new UI.

Thanks

Erin: is this is the new UI yet or should it be targetted for 11.1?

#11 - 09/07/2017 04:46 PM - Erin Clark

- Target version set to 11.1

The websocket call from the middleware doesn't exist for this yet so I will mark it as 11.1 for now
