Revision 2377ba46 - 04/19/2017 05:14 PM - William Grzybowski

fix(gui): look for the CA to auto pupolate

When creating an Internal Certificate it was looking for a certificate instead of the signing CA to auto populate the fields, leading to an exception (if a certificate of the same ID did not exist)

Rollbar: #87

Ticket: #23462
