

FreeNAS - Feature #23894

Add ability to choose the VM VNC screen resolution

05/10/2017 12:11 PM - Edd Williams

Status: Resolved	Estimated time: 0.00 hour
Priority: Nice to have	
Assignee: Marcelo Araujo	
Category: Middleware	
Target version: 11.1-BETA1	
Severity: New	Needs Merging: Yes
Reason for Closing:	Needs Automation: No
Reason for Blocked:	Support Suite Ticket: n/a
Needs QA: No	Hardware Configuration:
Needs Doc: Yes	
Description Looking at this thread: https://forums.freebsd.org/threads/56912/ bhyve under FreeBSD has options to change the VNC resolution when running a Windows VM (Or any VM for that matter) bhyve -c 2 -s 0,hostbridge -s 3,ahci-cd,./win10.iso -s 4,ahci-hd,./win_10.img -s 10,virtio-net,tap0 -s 11,fbuf,tcp=0.0.0.0:5900,w=1600,h=900,wait -s 20,xhci,tablet -s 31,lpc -l bootrom,./BHYVE_UEFI_20160526.fd -m 2G -H -w win10 with the bits i'm wondering about being "w=1600, h=900" Would be cool to be able to edit this in the VNC settings.
