

FreeNAS - Bug #23975

Feature Request: VM Poweroff button

05/15/2017 08:45 PM - Stuart Espey

Status: Closed: Duplicate	
Priority: Important	
Assignee: Marcelo Araujo	
Category: Middleware	
Target version: N/A	
Seen in: 11.0-RC	Needs Merging: Yes
Severity: New	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: Yes	ChangeLog Required: No
Needs Doc: Yes	
Description	
<p>The Stop button in the VM tab sends a power-button event to the VM. This is a gentle request to the VM to stop. If the VM doesn't want to handle the power-button event as a shutdown/halt, then it will never stop.</p> <p>There should be a Poweroff button in the UI, with suitable warnings which can be used to stop a VM which won't stop.</p> <p>The underlying bhyvectl command is</p> <pre>``bhyvectl --force-poweroff --vm=<vm-name>``</pre>

Associated revisions

Revision b75967f9 - 05/23/2017 08:16 PM - Marcelo Araujo

fix(vm): Gracefully stop vm using bhyvectl(8).

Ticket: #23975

Ticket: #23493

Revision cbb9120e - 05/24/2017 12:06 AM - Marcelo Araujo

fix(vm): Handle the bhyve return for --force-poweroff and avoid try to destroy it twice.

Ticket: #23975

Ticket: #23493

History

#1 - 05/15/2017 08:53 PM - Marcelo Araujo

- Status changed from Unscreened to Screened

- Priority changed from No priority to Important

- Target version set to 11.0-U1

#2 - 05/17/2017 11:07 AM - Anthony Takata

Referencing dup [#23493](#)

Thanks for the command to nicely kill the VM though!

#3 - 05/23/2017 08:27 PM - Marcelo Araujo

- *Target version changed from 11.0-U1 to 11.1*

Target it to 11.1!

It was already resolved in Nightlies!
