Description

Hi,
trying the new GUI I noticed that there are some formatting problems. Maybe it's better that Start on boot to be on the right of the status color, over the Edit and stop buttons. :)

The screenshot shows the 'SERVICES' tab in the FreeNAS GUI. On the left is a navigation sidebar with categories like Dashboard, System, Accounts, Directory Service, Network, Storage, Sharing, Services (highlighted), Jails, and VM/Container. The main area displays a grid of service cards. Each card has a title (e.g., 'AFP IS STOPPED'), a status indicator (red dot for stopped, green dot for running), a 'Start on Boot' checkbox, an 'Edit' button, and a power button. The 'Start on Boot' checkbox is currently unchecked for AFP, Dynamic DNS, LLDP, and NFS, and checked for SMB. The status indicator is a red dot for stopped services and a green dot for running services. The 'Edit' button is a yellow wrench icon, and the power button is a green power icon.
