- Target version set to 11.0-U1

First problem is self explanatory, you entered invalid credentials. Second problem is your time is wrong.

#15 - 06/19/2017 11:09 PM - Tobias Müllauer

Yes. time is wrong and Freenas update the time and get the wrong time from time.windows.com so i change the NTP to my DC and update the time on Freenas. then it workt. when i update the time from Time.windows.com it workt but after a time it change back to wrong time agen.
