#### Description

The screenshot shows the FreeNAS web interface. The left sidebar contains a navigation menu with items like Dashboard, System, General, Advanced, Email, Update, Certificates, CA, Tunables, Boot Environments, Accounts, Directory Service, Network, Storage, Sharing, Services, Jails, and VM/Container. The main content area is titled 'ADVANCED' and contains several configuration options:

- Enable Console Menu
- Enable Serial Console
- Serial Port: [dropdown]
- Swap size on each drive in GiB, affects new disks only. Setting this to 0 disables swap creation completely (STRONGLY DISCOURAGED): 2
- Serial Speed: 9600
- Enable Console Screensaver
- Enable Power Saving Daemon
- Enable autotune
- Enable Debug Kernel
- Show console messages in the footer
- MOTD Banner: Welcome to FreeNAS

A 'Save' button is visible at the bottom of the configuration panel. The interface has a white theme overlaying a black theme, which is the issue being reported.

Well, it's white! I don't think it's on purpose. It must be coherent with the overall black theme.
