

FreeNAS - Feature #25236

Add Docker section to Guide

07/20/2017 06:33 AM - Heather Ownby

Status: Resolved	Estimated time: 0.00 hour
Priority: Important	
Assignee: Warren Block	
Category: Documentation	
Target version: 11.1	
Severity: New	Needs Merging: Yes
Reason for Closing:	Needs Automation: No
Reason for Blocked:	Support Suite Ticket: n/a
Needs QA: No	Hardware Configuration:
Needs Doc: Yes	
Description Dear iXSystems team, thank you very much for everything that you have provided! I am a long time user and I have gone with you the journey of Corral and back again (had to re-install ...). I work in a global function for a very large multi-national company and 3 countries are today using TrueNAS now on my recommendation. I am a great fan of your products and today I am writing in a private capacity. Corral offered Docker support. The Internet is full of references. This is confusing. Please add a section "docker" to the FreeNAS 11 documentation -- saying that experimental support was in FreeNAS 10 and it did not pan out and if you want it, install a VM. Perhaps you could even recommend an image or say that an image is in the making or some such thing. But you absolutely should mention Docker in the documentation and give the current status. Many thanks, Oliver

History

#1 - 07/20/2017 06:43 AM - Dru Lavigne

- Status changed from *Untriaged* to *Unscreened*
- Assignee changed from *Release Council* to *Kris Moore*

Kris: it's been a while since you gave a status report on what we're doing with docker on the forums. Can your next post provide an update on the design and when we're expecting it that we can point this customer to?

#2 - 07/31/2017 01:28 PM - Kris Moore

- Status changed from *Unscreened* to *Screened*

Sounds good. I'll have to get some more "formal" docs written up, perhaps with Marcelo on what kind of support we are looking at.

#3 - 10/09/2017 03:07 PM - Stephen Cunningham

Has any "formal" info been released yet?

#4 - 10/09/2017 04:10 PM - Kris Moore

- Priority changed from No priority to Important
- Target version set to 11.1

Hang tight. We are still trying to figure out what this may look like in 11.1. More on that soon(ish)

#5 - 10/25/2017 10:10 AM - Kris Moore

- Target version changed from 11.1 to 11.2-BETA1

#6 - 11/14/2017 06:53 AM - Kris Moore

- Category changed from OS to Documentation
- Status changed from Screened to Unscreened
- Assignee changed from Kris Moore to Warren Block

Now that docker has landed in the form of RancherOS for 11.1 we can go ahead and throw a bit into the handbook about it. Over to Warren.

#7 - 11/14/2017 09:20 AM - Dru Lavigne

- Status changed from Unscreened to Screened
- Assignee changed from Warren Block to Dru Lavigne

#8 - 12/07/2017 10:03 AM - Dru Lavigne

- Subject changed from Docker Support Suggestion to Add Docker section to Guide
- Status changed from Screened to Ready For Release
- Assignee changed from Dru Lavigne to Warren Block
- Target version changed from 11.2-BETA1 to 11.1
