I am having a difficult time trying to get to the point that I can reproduce this, I am getting a traceback in targets when I try to make a target and it does only present me a 0 to select but I'm not sure if that is by design or if I have to do something to make more numbers show up (since I can't add targets I am not sure). Could you look at this Lola since you know this code better than I do?

Hi Erin and Dru,

I talked to Bartosz about this ticket on Jan 16, he confirmed this ticket is related to the old GUI not the new one. So he assigned it to himself.
