#### Description

In the latest FreeNAS Nightly the "Dlete" and "Clone" run over the buttons and isn't centered. (Screenshot provided)

#### History

##### #1 - 08/03/2017 11:08 AM - Erin Clark

- Assignee changed from Erin Clark to James Nixon

##### #2 - 08/07/2017 06:48 PM - James Nixon

- Status changed from Unscreened to Screened

- Target version set to 11.1

this should be replaced by a vertical ellipses icon that triggers a dropdown menu

##### #3 - 10/25/2017 03:19 AM - James Nixon

- Status changed from Screened to Ready For Release

We replaced these with Material's "more\_vert" icon that displays a dropdown menu when clicked - marking as *ready for release*

#### NOTES:

- We have a few ideas on how to work in mini icon buttons instead of the dropdown, *only* using the dropdown icon when there isnt enough screen real-estate to display all icons properly
- We can also choose to 'overflow' the row's inline action icons into the dropdown responsively as the browser is resized, or loaded on smaller screens that may fit most, but not all icons
- Actions that could potentially span many items (such as Delete) *could* be moved to a designated spot, like a toolbar above/below the table header that appears upon selection of table items, much like inbox.google.com,

##### #4 - 10/25/2017 05:35 AM - Dru Lavigne

- Status changed from Ready For Release to Resolved
- Target version changed from 11.1 to Master - FreeNAS Nightlies
