

FreeNAS - Feature #25686

Add Notes field to FreeNAS

08/24/2017 09:30 PM - Stuart Espey

Status: Resolved	Estimated time: 0.00 hour
Priority: Nice to have	
Assignee: Lola Yang	
Category: GUI (new)	
Target version: Master - FreeNAS Nightlies	
Severity: New	Needs Merging: Yes
Reason for Closing:	Needs Automation: No
Reason for Blocked:	Support Suite Ticket: n/a
Needs QA: Yes	Hardware Configuration: 11-U2
Needs Doc: Yes	
Description Many server web GUIs provide a notes field where configuration notes/details can be recorded for other admins. AFAIK, FreeNAS does not have this capability. It would be useful if there was a notes field on the System or System/General tabs which would allow miscellaneous information to be recorded, displayed, and backed up/restored via a config.

Associated revisions

Revision 7e3c2c77 - 10/06/2017 10:07 AM - Dru Lavigne

Add Enabled checkbox to Init/Scripts.
Ticket: #25686

History

#1 - 08/25/2017 04:08 AM - Dru Lavigne

- Assignee changed from Release Council to Kris Moore

Over to Kris for consideration.

#2 - 08/25/2017 10:05 AM - Kris Moore

- Category changed from 2 to GUI (new)
- Assignee changed from Kris Moore to Anonymous
- Priority changed from No priority to Nice to have
- Target version set to 11.2-BETA1

This is a good one, now that we have API call to "save" these notes / settings. Over to Erin for the new UI

#3 - 09/22/2017 12:57 PM - Anonymous

- Status changed from Unscreened to Screened

#4 - 10/27/2017 10:19 AM - Kris Moore

Update on this one. It should be a "widget" that can be added to the dashboard along with other stat views and whatnot. Ideally we could support multiple text-widgets, so the user can leave various notes wherever they want. (I.E. maybe next to each reporting widget, the sysadmin leaves a note what to watch for)

#6 - 11/23/2017 05:06 AM - Nesma Shah

- Status changed from Screened to 15

- Assignee changed from Nesma Shah to Kris Moore

I have question regarding this as which API to call and what is the field configuration.?

#7 - 11/24/2017 04:42 AM - Nesma Shah

the update API for `account/users/1` is not adding notes to the user...

#8 - 11/27/2017 06:06 AM - Nesma Shah

- Status changed from 15 to Fix In Progress

- Assignee changed from Kris Moore to Nesma Shah

#9 - 11/27/2017 06:53 AM - Kris Moore

- Assignee changed from Nesma Shah to Peter Southwell

Pete, I know you used the user APIs to save theme settings, can you point Nesma in the right direction here?

#10 - 11/27/2017 07:09 AM - Nesma Shah

- Assignee changed from Peter Southwell to Nesma Shah

Kris, I am able to get that cleared and Mostly I will able to get it done by tomorrow as need to check few things.

#11 - 11/27/2017 10:12 AM - Peter Southwell

./src/app/services/theme/theme.service.ts

Saving:

```
changeTheme(theme) {
  domHelper.changeTheme(this.freenasThemes, theme.name);
  this.freenasThemes.forEach((t) => {
    t.isActive = (t.name === theme.name);
  });
}

this.ws.call('user.update', [1, {
  attributes: {
    usertheme: theme.name
  }
}]).subscribe((res_ws) => {
  console.log("Saved usertheme:", res_ws, theme.name);
});
}
```

Note: usertheme I was the one that invented that name... So.. It can be...

```
attributes: {
  whatevercustomfield: "something"
```

```
}
```

Pulling the variable back up...

I check the user to see if they have a usertheme attribute that exists.. And has a value.. If it does... I set the theme.

```
constructor(private rest: RestService, private ws: WebSocketService) {

this.rest.get("account/users/1", {}).subscribe((res) => {
  this.savedUserTheme = res.data.bsdustr_attributes.usertheme;
  this.freenasThemes.forEach((t) => {
    t.isActive = (t.name === this.savedUserTheme);
  });

if( typeof(this.savedUserTheme) !== "undefined" && this.savedUserTheme !== "" ) {
  domHelper.changeTheme(this.freenasThemes, this.savedUserTheme);
}

});
}
```

Hope that helps. :)

Hi @Nesma1988, Your PR works, it enable to add a note. but it allows adding only one note. I have some suggestions:

1. should allow adding multiple notes, not only one.
2. list view for all notes
3. enable to update and delete existing notes.

#14 - 12/01/2017 11:47 AM - Kris Moore
