<b>Reason for Closing:</b>	<b>Support Suite Ticket:</b> n/a
<b>Reason for Blocked:</b>	<b>Hardware Configuration:</b>
<b>Needs QA:</b> No	<b>ChangeLog Required:</b> No
<b>Needs Doc:</b> Yes	
<b>Description</b>	
Hello,	
I just find out a problem on the <a href="https://doc.freenas.org/11/network.html">https://doc.freenas.org/11/network.html</a> documentation.	
On the "Fig. 7.1.1 Global Network Configuration" section the HTTP Proxy section is wrong.	
"enter the proxy information for the network in the format <a href="http://my.proxy.server:3128">http://my.proxy.server:3128</a> or <a href="http://user@password:my.proxy.server:3128">http://user@password:my.proxy.server:3128</a> "	
This should be -> <a href="http://user:password@my.proxy.server:3128">http://user:password@my.proxy.server:3128</a>	
Regards, Zoltan
