Description

For some reason I'm not seeing the new web UI correctly. I attached a screenshot of what I'm seeing when trying to load the new web UI.

I also checked the console and noticed the following error.

Template parse warnings:

The <template> element is deprecated. Use <ng-template> instead ("

```
[WARNING >]<template [ngIf]="!isClosed">
```

```
<div [class]="alert alert' + type" role="alert" [ngClass]="classes">: ng:///t.html@1:0
