

FreeNAS - Bug #26467

Changing the Train FreeNAS 11 Prerelease to FreeNAs Stable (to get FN 11.1rc1) gives a warning about upgrading from Nightlies

11/01/2017 11:02 AM - Bonnie Follweiler

Status: Closed: Insufficient Info	
Priority: No priority	
Assignee: William Grzybowski	
Category: OS	
Target version: N/A	
Seen in: 11.1-BETA1	Needs Merging: Yes
Severity: New	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: Yes	ChangeLog Required: No
Needs Doc: Yes	
Description	
The "Seen In" should be for FreeNAS 11.1Prerelease but that choice was unavailable.	
Is this the correct behavior? If a customer choose to install the Prerelease version of FN 11 and now wants to upgrade to FN 11.1rc1 they are told that they are currently on the Nightly Train and they need to roll back to a Stable version (Screenshot provided)

I managed to switch from [Nightlies] to [Pre-release] train without problems. After a couple of reboots, I decided to switch from [Pre-release] to [stable] train and made the switch successfully, then downloaded the available updates. But then the system stopped working and gave me all kinds of errors and no web-GUI. I rolled back and rebooted using the Pre-release, which loaded fine. I tried to switch to the [Stable] train from [Pre-release] again and got the same errors and no GUI.

I see that this bug is closed as it's a Duplicate...
But strangely, the other (i. e. the duplicated) bug is also closed for the same reason...
But what's the fix to this issue? I'm currently seeing the same here.
