<b>Description</b>		
Version: FreeNAS-11-MASTER-201711060512		
The default shell size is too tall for many laptop screens. Consider bringing back the size adjustment and the "Paste" option.		

#### Associated revisions

##### Revision 503094af - 11/10/2017 03:55 PM - Jingjing(Lola) Yang

Merge pull request #91 from freenas/chentao-fix-26542

Improved SHELL UI to be flexible according to browser size. Ticket: #26542

#### History

##### #1 - 11/07/2017 02:58 PM - Kris Moore

- Assignee changed from Release Council to Xin Tan
- Priority changed from No priority to Expected
- Target version set to 11.2-BETA1

We should try to make it resizable for different screens. The paste option is gone though, regular ctrl-c / ctrl-v works fine. I for one am glad, hated that nasty paste dialog.

##### #2 - 11/07/2017 05:19 PM - Michael Dexter

Indeed, that was never a great bit of UI. Do think about the workflows when VNC/TeamViewer/join.me'd into a machine with FreeNAS in a web browser. Must remember that 'CTRL-w' to kill a word in the Shell will NOT do what you want in Windows. :)
