

FreeNAS - Bug #26773

[NEW UI/VM] Add Docker VM in the new UI.

11/21/2017 02:20 AM - Marcelo Araujo

Status: Done	
Priority: No priority	
Assignee: Vaibhav Chauhan	
Category: GUI (new)	
Target version: Master - FreeNAS Nightlies	
Seen in: Master - FreeNAS Nightlies	Needs Merging: Yes
Severity:	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: Yes	ChangeLog Required: No
Needs Doc: Yes	
Description <p>We need to add the "Docker VM" option in the new UI! The process is a little bit complex, as we need to download a pre-built image, we need to show a progress bar while we are downloading it, we need to decompress the image, need to resize it, need to create a grub config file for the guest and etc.</p> <p>I have prepared a documentation with the steps necessary to import this feature from OLD UI to NEW UI, also there are some high level diagrams that more less shows the websocket calls.</p> <p>In doubt, feel free to contact me at any time, this one I know is a bit complex to move to the new ui.</p>	
Subtasks:	
Feature # 27413: Let us choose the location where the Bhyve configfiles and/or template...	Closed: Duplicate
Bug # 29257: please fix middleware call for downloading rancheros-bhyve-v1.1.3.img.gz	Done
