##### Revision bc559fe3 - 12/08/2017 04:01 PM - Erin Clark

Make the volume manager auto suggestion button work with just the standard setting for now

Multiple vdevs for virtualization turns out to be more difficult than I thought it would be.

#### History

##### #1 - 12/08/2017 04:14 PM - Erin Clark

The simple button is mostly done in this PR <https://github.com/freenas/webui/pull/150>

I attempted to add presets for things like virtualization but those require creating multiple vdevs which turns out to be a nasty parallelization problem that I haven't yet figured out how to get around so I will do those later.
