**Description**

I've already got a branch for this, it may need to be synced though. I've spoken to Rick Macklem and he says it's safe and won't affect current NFS v3 and v4 code paths, only when pNFS is used. I'd like to bring this in officially and mark it beta. Thoughts? ;-)

I've got the pNFS code into freenas HEAD. I have a branch for 11-stable but need to work on it a bit more so it compiles cleanly. I have the fixes around somewhere, just need to spend an hour or so and get it done.

When you have this pulled into 11-stable, let me know! I would like to start hacking and testing this as well.
