<b>Description</b>	
Hi,	
I noticed there is a <b>Subject Alternate Names</b> field in the old UI under <b>Certificates -&gt; Create Internal Certificates</b> and <b>Certificates -&gt; Create Certificate Signing Request</b> . When I checked these sections in the latest FreeNAS Nightlies (FreeNAS-11-MASTER-201712210610) I noticed they were missing. I've attached pictures for a reference.

It should be `cert\_san` attribute in API. Does that not work?
