

## FreeNAS - Bug #27895

### Remove popup message that refers to defunct Change Email button

01/21/2018 12:06 PM - Peter Samouelian

<b>Status:</b> Done	
<b>Priority:</b> Nice to have	
<b>Assignee:</b> William Grzybowski	
<b>Category:</b> Middleware	
<b>Target version:</b> 11.2-BETA1	
<b>Seen in:</b> 11.1-U1	<b>Needs Merging:</b> No
<b>Severity:</b> Low	<b>Needs Automation:</b> No
<b>Reason for Closing:</b>	<b>Support Suite Ticket:</b> n/a
<b>Reason for Blocked:</b>	<b>Hardware Configuration:</b>
<b>Needs QA:</b> No	<b>ChangeLog Required:</b> No
<b>Needs Doc:</b> No	
<b>Description</b> After upgrading to 11.1-U1 today, I noticed that the Change E-mail button is missing from the bottom of the Account -> Users -> View Users screen. This occurs with legacy UI on both Safari 11.0.2 and Firefox 57.0.4. This may have been intentionally removed. If so, the System -> Email config screen should probably be updated to remove this instruction. If the user's email is updated using the regular Modify User screen, does this require me to fill in password fields and reset password? I.e., if I leave the password fields blank, will the system just update the other fields?

## History

### #1 - 01/21/2018 12:33 PM - Peter Samouelian

Researching further, it looks like this button was intentionally removed as part of Ticket: [#25565](#) (changed in gui/account/admin.py). The instructions need to be updated in gui/templates/system/email\_edit.html. More importantly, though, how should we update the root email w/o changing/revalidating the password?

### #2 - 01/22/2018 06:41 AM - Dru Lavigne

- Assignee changed from Release Council to William Grzybowski

Passing to William for comment.

### #3 - 01/29/2018 07:31 AM - Kris Moore

- Status changed from Unscreened to Not Started

### #4 - 02/05/2018 03:06 AM - William Grzybowski

- Priority changed from No priority to Nice to have

- Target version set to 11.2-RC2

- Severity set to Low

Password does not need change. You can leave password blank and it will use existing one.
