#### #4 - 01/22/2018 06:58 AM - Dru Lavigne

- Status changed from *Unscreened* to *Closed*

- Target version set to *N/A*

- Private changed from *Yes* to *No*

- Seen in changed from *Unspecified* to *11.0-U2*

- Reason for Closing set to *Not Applicable*

Zebu: this isn't a bug, so I'm closing it out. One of your boot devices has died. You can either replace the bad device and rebuild the boot mirror or reinstall to a new boot device and restore your config. The forums are available if you need assistance in doing so.
