Is this an HA system?

The GUI and CLI code there use the same code, which means they use the same update.conf file.

**#3 - 01/22/2018 11:08 AM - Bonnie Follweiler**

This is not an HA system. This is a VM.

I am able to upgrade from the GUI but I am unable to upgrade from the CLI.

After several attempts, I was finally able to capture the error message by taking robo-shots with my cell phone. <whew>

Just an FYI: My comment about the url is just my observation of the error message and could be way off base. :D
