

FreeNAS - Bug #28069

When trying to build the public git repo it fail's at "security/trousers"

01/30/2018 05:56 AM - Dennis Juhler Aagaard

Status: Done	
Priority: Nice to have	
Assignee: Kris Moore	
Category: OS	
Target version: Master - FreeNAS Nightlies	
Seen in: Master - FreeBSD-Stable	Needs Merging: No
Severity:	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: Yes	ChangeLog Required: No
Needs Doc: No	

Description

When making a fresh git clone of the build repo and doing as told in the readme file. make checkout and make release I get the following error:

```
[00:54:48] [02] [00:00:48] Finished security/trousers | trousers-0.3.14_1: Failed: fetch
[00:54:48] [02] [00:00:48] Skipping security/gnutls | gnutls-3.5.13: Dependent port security/trousers | trousers-0.3.14_1 failed
[00:54:48] [02] [00:00:48] Skipping dns/inadyn-troglobit | inadyn-troglobit-2.2: Dependent port security/trousers | trousers-0.3.14_1 failed
[00:54:48] [02] [00:00:48] Skipping net/samba47 | samba47-4.7.0_6: Dependent port security/trousers | trousers-0.3.14_1 failed
[00:54:48] [02] [00:00:48] Skipping security/sss | sss-1.11.7_8: Dependent port security/trousers | trousers-0.3.14_1 failed
[00:54:48] [02] [00:00:48] Skipping security/sudo | sudo-1.8.21p1: Dependent port security/trousers | trousers-0.3.14_1 failed
```

I am unable to locate where it fail's. Looking in the ports repo the "security/trousers" is present.

So the entire build fails.

History

Dennis: to clarify, which repo and which README?

#2 - 01/30/2018 07:28 AM - Dennis Juhler Aagaard

Uh, Sorry.

I am using the build repo at: <https://github.com/freenas/build>

And i checked at: <https://github.com/freenas/ports> that security/trousers are present. So it must be somewhere inside the ports section that are unable to pull in the files. But its outside the scope of my knowledge. :-)

- *Category set to Forums/Websites*
- *Assignee changed from Release Council to Kris Moore*
- *Priority changed from Critical to Nice to have*
- *Target version set to Master - FreeNAS Nightlies*

#4 - 01/30/2018 07:48 AM - Kris Moore

- *Status changed from Not Started to In Progress*

I'm seeing this also now. Our build nodes have the old distfile cached, so I'm guessing it got re-rolled upstream. Investigating.
