Description

(copied from [#27256](#))

FreeNAS 11.1, on my FreeNAS Mini, does not display the serial number in the dashboard. I have personally verified that the serial number is burned in with dmidecode.

Please add this for feature parity with the old WebGUI.

Bartosz, we need to show the serial number in the old UI not just for TrueNAS, but also for FreeNAS Mini and FreeNAS Certified.

Is this something you could do, please?
