

FreeNAS - Bug #28435

Setting ZFS Quota doesn't work in the new GUI

02/11/2018 04:24 PM - Mac Lemon

Status: Done	
Priority: Nice to have	
Assignee: Peter Southwell	
Category: GUI (new)	
Target version: Master - FreeNAS Nightlies	
Seen in: 11.1-U1	Needs Merging: No
Severity:	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: Yes	ChangeLog Required: No
Needs Doc: Yes	
Description	
<p>When trying to set a quota for a Dataset in the new GUI it complains about not-setting anything else. Dialog cannot be dismissed.</p> <p>In addition, the dialog gives information what is expected by the form checker, which is welcome. But, the form checker refuses the suggestion of 0 which was prepopulated in the form, AND is suggested by the form checker and this was also the way it was before when using the working GUI which shows the exact same 0 for not setting a specific property.</p> <p>The units used by the GUI differ from what is accepted by the zfs(1) command line tool. This is consistent with the working GUI, but inconsistent with the command line. (See workarounds.)</p> <p>Workaround: Admin must log out, and back in with the working GUI to set a quota. Admin must login over SSH and set the quota using the command line.</p> <p>Once the quota has been set via the working GUI or the commandline it is correctly reported in the new GUI.</p>
