

FreeNAS - Bug #28663

HTTP Basic auth prompts, typically in Safari (FreeNAS-11-MASTER-201802211301)

02/21/2018 05:21 PM - David Discher

Status: Done	
Priority: No priority	
Assignee:	
Category: GUI (new)	
Target version: Master - FreeNAS Nightlies	
Seen in: N/A	Needs Merging: Yes
Severity: Med High	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: Yes	ChangeLog Required: No
Needs Doc: Yes	
Description	
It looks like the New UI is loading data via API, and this API: /api/v1.0/storage/replication/	
On the main landing page after login is prompting for HTTP Basic Auth.	
This might be every single XHR request going back to the API that is having issues.	

History

#1 - 02/21/2018 05:36 PM - David Discher

- Subject changed from HTTP Basic auth prompts, typically in Safari to HTTP Basic auth prompts, typically in Safari (FreeNAS-11-MASTER-201802211301)

- Seen in changed from 11.1-U2 to N/A

Happening in FreeNAS-11-MASTER-201802211301

#2 - 02/21/2018 05:52 PM - David Discher

A few of the XHR calls are lacking trailing slashes, and resulting in 301 redirects.

The holy web says that this may be related to the safari issue :

<https://stackoverflow.com/questions/35684933/https-requests-with-authorization-not-working-via-safari>

#3 - 02/22/2018 04:22 AM - Dru Lavigne

- Assignee changed from Release Council to Anonymous

- Target version set to 11.2-BETA1

#4 - 02/26/2018 08:39 AM - Ben Gadd

- Due date set to 03/09/2018

#5 - 02/26/2018 11:39 AM - Anonymous

- Status changed from Not Started to Done

This should be fixed in nightlies now

#6 - 02/26/2018 02:19 PM - Dru Lavigne

- *Target version changed from 11.2-BETA1 to Master - FreeNAS Nightlies*

<https://github.com/freenas/webui/pull/421> fixes the original fix.
