<b>Description</b>	
I am having some issues with Replication Tasks.	
1.) I am confused as to which key/token goes in which field. What field do I paste the Replication Auth Token in and Replication Key (ssh-rsa) on the Replication form?	
2.) When I click the Scan SSH Key button I get some pop up errors.	
I've attached screenshots for further clarification and a text file with the errors.

So it looks like the Replication Key goes in the Remote hostkey field, but I don't know where the Replication Token goes. In the old GUI you pasted it in the "Remote Auth Token" field.
