- Status changed from Not Started to Blocked

- Reason for Blocked set to Waiting for feedback

The documentation seems wrong.

Can you try using the `disk\_identifier` field instead of the `id` and let me know if that works so I can update the docs?

Thanks

yes. I used 'disk\_identifier' and it works before.

I retest it on version FreeNAS-11-MASTER-201802232214. It looks like it works again. I will close this ticket. Thanks.
