Description

This line is tracing back on my system in the FTP service section (perhaps because I don't have any certificates?)

```
this.systemGeneralService.getCertificates().subscribe((res) => {
  this.ftp_ssltls_certfile =
    _.find(this.fieldConfig, {'name' : 'ftp_ssltls_certfile'});
  res.data.forEach((item) => {
    this.ftp_ssltls_certfile.options.push(
      {label : item.cert_common, value : item.id});
  });
});
```
