Craig: what error do you receive when you try to configure monitoring?

Also, please attach a debug (System -> Advanced -> Save Debug) after reproducing the error.

#2 - 05/08/2018 04:51 PM - Craig Shiels

The nut.so shared object is not distributed by FreeNAS. I'm not sure what more I can do here.

To build nut, extra options to build are required:

```
--enable-nut --with_libupsclient=/usr/local
```
