

FreeNAS - Bug #34606

Fix to allow SSH to reload when start on boot is disabled for SSH

06/06/2018 02:40 PM - Zackary Welch

Status: Done	
Priority: No priority	
Assignee: Waqar Ahmed	
Category: Middleware	
Target version: 11.2-BETA1	
Seen in: Master - FreeNAS Nightlies	Needs Merging: No
Severity: Medium	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: No	ChangeLog Required: No
Needs Doc: No	
Description	
<p>This can occur with many different services, but one in particular I came across was with ssh and the "Login as Root with Password" setting. The service must be reset (an option which is not present) when the option is toggled, so the service must be stopped and then started again.</p> <p>A tooltip is provided as to what the setting means but does not state that ssh must be restarted when the setting is changed. Either the tooltip needs to state this fact with different settings, a message needs appears stating the service needs to be reset when the setting is changed, or the service automatically resets when a particular setting is toggled (what I would assume is an option in and of itself).</p>

History

#1 - 06/12/2018 12:18 PM - Dru Lavigne

- Category changed from *GUI (new)* to *Middleware*
- Assignee changed from *Release Council* to *William Grzybowski*

As discussed, this appears to be a middleware bug.

#2 - 06/13/2018 04:48 AM - William Grzybowski

- Assignee changed from *William Grzybowski* to *Waqar Ahmed*
- Target version changed from *Backlog* to *11.2-RC2*
- Severity changed from *New* to *Medium*

Waqar, can you try reproducing this issue and follow up with the reporter as necessary? Thank you
