- Status changed from Ready for Testing to Failed Testing

- Needs QA changed from Yes to No

**FreeNAS-11.2-MASTER-201806210452**

I tested a couple of scenarios and after discussing with Waqar we realized that there may be a few things need which needs fixing here. After going through the added code, i realized there should be an error message when DHCP is not checked and static IP is not provided... it successfully saves even if the IP is 0.0.0.0 or no IP at all without any error (Refer screen-shots)

**#5 - 06/21/2018 10:15 AM - Waqar Ahmed**

- Status changed from Failed Testing to Ready for Testing

Explicit checks for None values have been added in Middlewared when DHCP is off. PR - <https://github.com/freenas/freenas/pull/1413>

**#6 - 06/21/2018 10:16 AM - Dru Lavigne**

- Needs QA changed from No to Yes

**#7 - 06/29/2018 11:32 AM - Zackary Welch**

I will work on testing this one.

**#8 - 06/29/2018 12:16 PM - Zackary Welch**

- File zeroes.png added
- Status changed from Ready for Testing to Passed Testing
- Needs QA changed from Yes to No

I get an error when no IP, DNS, or Route is provided and DNS is off; however, 0.0.0.0 still works. This isn't technically invalid, but we might want some warning/docs about that. Also, what about greying the boxes when DHCP is enabled? Anyway, this passes.

**#9 - 06/29/2018 12:24 PM - Dru Lavigne**

- Status changed from Passed Testing to Done
