**Description**

A TrueNAS customer asked me to file a feature request to have the extents list sorted alphabetically.

If you go to add an extent under iscsi, the device field must be chosen from a dropdown. It doesn't seem to be organized in any particular fashion, and this user has over 100 devices listed, making it very time consuming to find the new one he created when adding an extent. (He does 1 extent per VM)

---

**Risk**

The risk is contained with iscsi extent list not sorting properly.

**Acceptance Criteria**

iSCSI Extent list for devices should now show sorted alphabetically in both add and edit screens.
