Description https://github.com/freenas/freenas/pull/1343 suggested changes to the NTLMv1 warning. This patch expands on those. src/app/pages/services/components/service-smb/service-smb.component.ts for the Angular GUI needs a similar change.

Testing with FreeNAS System updated to FreeNAS-11.2-MASTER-201807190857:

[New UI]

Go to Services/SMB/Configure. Verify "Auxiliary Parameters" field tooltip is updated and links function correctly. Verify NTLMv1 Auth tooltip is updated and link functions correctly.

[Legacy UI]

Follow the same procedure. Help text for NTLMv1 Auth field is the previous text that was supposed to be updated.
