

FreeNAS - Bug #36523

Hide Auxiliary Arguments from Cloud Sync task

Description We are currently showing Auxiliary Arguments in the Cloud Sync tasks UI. That should be hidden because its an implementation detail we dont want to expose just yet. The backend (middleware) can and should still provide that ability.	
Risk The risk is low since its just hiding the field in UI.	
Acceptance Criteria Auxiliary Arguments should not be available anymore in Cloud Sync add/edit dialogs neither datagrid.

Testing with a FreeNAS Mini with INTERNAL16 installed:

Created a valid Cloud Credential. Created a new Cloud Sync task and checked both Add and Edit forms for an Auxiliary Arguments field. None is visible. Did this check for both New and Legacy UIs.
