

## FreeNAS - Bug #36698

### Catch up with API null value changes in legacy UI for iSCSI

07/05/2018 09:53 AM - William Grzybowski

<b>Status:</b> Done	
<b>Priority:</b> No priority	
<b>Assignee:</b> Waqar Ahmed	
<b>Category:</b> Middleware	
<b>Target version:</b> 11.3-ALPHA1	
<b>Seen in:</b> Master - FreeNAS Nightlies	<b>Needs Merging:</b> No
<b>Severity:</b> Medium	<b>Needs Automation:</b> No
<b>Reason for Closing:</b>	<b>Support Suite Ticket:</b> n/a
<b>Reason for Blocked:</b>	<b>Hardware Configuration:</b>
<b>Needs QA:</b> No	<b>ChangeLog Required:</b> No
<b>Needs Doc:</b> No	
<b>Description</b> Changes were made to the API to not allow default null values everywhere.  Legacy UI needs to be update to not send said null values.  <b>Risk</b> Low risk task since its mostly fixing things currently broken  <b>Acceptance Criteria</b> Once this is done one should be able to create all kinds of iSCSI entries (specially entries that allow no values to be specified, e.g. no target alias, no auth group, etc)

Tested minimal options and I saw 'None' choices as well as required fields. However, when I create a portal in the legacy UI, the sharing page is broken. Clicking 'Sharing->Block->Target Global Configuration' does nothing, but going to another area (such as VMs) and going back works. Is this a bug?

**#11 - 03/01/2019 01:41 PM - Bonnie Follweiler**

- Status changed from Ready for Testing to Blocked

- Reason for Blocked set to Waiting for feedback

**#12 - 03/04/2019 12:26 AM - Waqar Ahmed**

- Status changed from Blocked to Ready for Testing

- Reason for Blocked deleted (Waiting for feedback)

**#14 - 03/04/2019 08:07 AM - Zackary Welch**

- Status changed from Ready for Testing to Passed Testing

- Needs QA changed from Yes to No

Valid none options include 'Discovery Auth Method', 'Discovery Auth Group', and 'Comment' in Portal, 'Comment' in Initiator, 'Peer User' and 'Peer Secret' in Authorized Access, 'Target Alias', 'Initiator Group ID', 'Auth Method', and 'Authentication Group number' in Targets, 'Available Space Threshold' and 'Comment' in Extents, and 'LUN ID' in Associated Targets.
