**Description**

The labeling we use on the x series is R for the read cache/l2arc and W for the write cache/slog.

Could we update the documentation to reflect this?

Can you be more specific about exactly how this would look? Would the picture currently showing "SLOG" only show "W"? Or should it show "W CACHE" or something else?

##### #3 - 08/29/2018 12:22 PM - Shawn Cox

Replace Slog with W and L2arc with R.
