

FreeNAS - Bug #39453

Add API to display plugin version number for Installed Plugins

07/24/2018 01:37 PM - Erin Clark

Status: Done	
Priority: No priority	
Assignee: Brandon Schneider	
Category: Middleware	
Target version: 11.2-BETA3	
Seen in: Master - FreeNAS Nightlies	Needs Merging: No
Severity: Low	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: No	ChangeLog Required: No
Needs Doc: No	
Description Fixing description. According to the UI team, the API currently provides version number for Available Plugins. Since the new UI also needs to display the version number of Installed Plugins (for feature parity), an API piece is needed to display version number for Installed Plugins.

PR: <https://github.com/freenas/freenas/pull/1699>

DESC: Show local plugin pkg versions

RISK: Low

ACCEPTANCE: midclt call jail.list_resource "PLUGIN" will return versions for installed plugins

If INDEX can be read and the pkg has a version:

```
root@freenas:~ # midclt call jail.list_resource "PLUGIN"
[[null, "btsync", "on", "down", "pluginv2", "11.2-RELEASE-p2", "DHCP (not running)", null, null, "http://DHCP:8888/", "2.5.13", "1"]]
```

Otherwise:

```
root@freenas:~ # midclt call jail.list_resource "PLUGIN"
[[null, "btsync", "on", "down", "pluginv2", "11.2-RELEASE-p2", "DHCP (not running)", null, null, "http://DHCP:8888/", "N/A", "N/A"]]
```

It appends the pkg version and revision fields to the array.
