Dru,

Can I clarify regarding my closed dupe, what /is/ the update process, once it's actually live?   Will there be an 'update' option in the UI? Will it be like the Warden UI with 'update available' notifications?
That was partially my point in the closed dupe.

#19 - 08/20/2018 04:49 AM - Dru Lavigne

Yes, that is the plan. If the update button is not working once BETA3 is available, please remind me to reopen your dupe for investigation.

In that case, it may actually be wise to NOT upgrade all the plugins, for the sake of the plugin upgrade process.
Ship BETA3 with 4.1.1 of qbittorrent for example, then publish the 4.1.2 update and let us all test it? I'm happy to.

#21 - 08/23/2018 04:04 AM - Dru Lavigne

Correct. The plugins are updated in the repo, it is up to the user to decide when they wish to upgrade their installed version.
