Nginx rule fix for plugins

This commit fixes an issue where an unintended redirect was taking place when plugins was in the url.
Ticket: #40066

History

#1 - 07/30/2018 10:48 AM - Erin Clark

- Assignee changed from Release Council to Lola Yang

Lola could you please look into this?

#2 - 07/30/2018 10:51 AM - Lola Yang

- Status changed from Unscreened to Screened

#3 - 07/30/2018 02:57 PM - Erin Clark

- Status changed from Screened to Unscreened

- Assignee changed from Lola Yang to William Grzybowski

William: This appears to be caused by an nginx rule:

Line 281 of ix-nginx generates the following:

```
location ~ /(legacy|plugins|api/v1.0)/ {
```

If I remove the |plugins from that rule the issue goes away, however I don't know if that is how we want to fix things so I am passing this to you to see

if you have any ideas.
