

FreeNAS - Bug #40856

Fix display of GIDs in new UI

08/06/2018 05:23 AM - Tom Fjader

Status: Done	
Priority: No priority

Category: GUI (new)	
Target version: 11.2-BETA3	
Seen in: 11.2-BETA2	Needs Merging: No
Severity: New	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: No	ChangeLog Required: No
Needs Doc: No	
Description	
<p>The GID field in Account / Users is clearly wrong. I guess you output wrong field from the database. There is no GID field in the account_bsdusers table in the freenas-v1.db. You apparently output field account_bsdusers.bsdustr_group_id, but this field is NOT the GID, it is the FOREIGN KEY to table account_bsdgroups.</p> <p>You need e.g. a JOIN query with those two tables joined 'ON account_bsdgroups.id = account_bsdusers.bsdustr_group_id' the get the true GID i.e. 'account_bsdgroups.bsdustr_group_id'. This should be trivial for anyone who knows SQL.</p>

Testing with FreeNAS system updated to FreeNAS-11.2-MASTER-201808310859:

Go to Account > Users. Create new users Chester and Maximilian. View UID and GID for these users and compare to the display in Legacy UI. Values match and appear correct.
