

FreeNAS - Bug #40953

Remove User Base and Group Base fields from Active Directory

08/07/2018 10:03 AM - Bonnie Follweiler

Status: Done	
Priority: No priority	
Assignee: Vaibhav Chauhan	
Category: GUI (new)	
Target version: 11.2-BETA3	
Seen in: 11.2-BETA2	Needs Merging: No
Severity: Low	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: No	ChangeLog Required: No
Needs Doc: No	
Description	
As documented in this thread: https://forums.freenas.org/index.php?threads/not-the-correct-path.62210/	
Goal: The goal is a FreeNAS system that uses the MS Active Directory user path "OU=FS User, DC=XXX, DC=XXX" in Samba.	
Status: We can see only the users in the path "CN=Users, DC=XXX, DC=XXX", but we need users of the path: "OU=XXX User, DC=XXX, DC=XXX" at the moment. We can only use the users on FreeNAS or the AD users in the default AD path. So we can't use the FreeNAS system for our MS AD users. We added the user base: "OU=XX Users" and the group base: "OU=XX Groups" but to no effect. We can't see errors or signs of using the changed user base in the logs of Samba.	
Wish: See all AD users and AD groups in the changed paths to use Samba with these entries.	
Erin - Can you please make sure User Base and Group Base are removed from the new GUI for 11.2-Beta3?
