**Description**

I tried to change the DynamicDNS settings and it fails to save:

Testing with FreeNAS system updated to FreeNAS-11.2-MASTER-201808300858:

Set up free account at no-ip.com for testing. Testing with both UIs.

Log in and go to Services > DynamicDNS > CONFIGURE. Enter new settings in the form and click SAVE. Verify no traceback error is generated in legacy ui. Angular UI: Please Wait popup appears and the UI is stuck at this point.

Will update with debug when it finishes downloading.
