Description

If you move away from Dashboard page (e.g. go to Services) you will still see websockets requests of stats.get_data being made periodically.

```
{ "id": "f3c42108-d536-bf07-9eac-e09139d51e55", "msg": "method", "method": "stats.get_data", "params": [ [ { "source": "interface-em0", "type": "if_packets", "dataset": "rx" }, { "source": "interface-em0", "type": "if_packets", "dataset": "tx" }, { "source": "interface-em0", "type": "if_octets", "dataset": "rx" }, { "source": "interface-em0", "type": "if_octets", "dataset": "tx" }, { "source": "interface-em0", "type": "if_errors", "dataset": "rx" }, { "source": "interface-em0", "type": "if_errors", "dataset": "tx" } ], { "step": "10", "start": "now-10m" } ] }
```

This bring unnecessary load to middleware and should be avoided.
