Validation for jail creation improved

This commit improves validation for jail creation ensuring that in case of failure, we remove any allocated resources.
Ticket: #41694

Revision e9211137 - 08/16/2018 01:38 AM - Waqar Ahmed

Improve validation for jail creation

This commit improves validation when creating jails by ensuring that if a jail with the same name exists, we shouldn't go and try to create another one. Secondly, in case of any failure with jail creation, a call is made to delete any resources which still might be allocated.
Ticket: #41694

Waqar can you look at this, please?

We need to be careful though because the install may fail because of another jail already exists (e.g. legacy jail not from iocage).
