

FreeNAS - Bug #41886

Enforce VM minimum memory check in new UI

08/16/2018 07:06 AM - Vaibhav Chauhan

Status: Done	
Priority: No priority	
Assignee: Vaibhav Chauhan	
Category: GUI (new)	
Target version: 11.2-BETA3	
Seen in: Master - FreeNAS Nightlies	Needs Merging: No
Severity: Medium	Needs Automation: No
Reason for Closing:	Support Suite Ticket: n/a
Reason for Blocked:	Hardware Configuration:
Needs QA: No	ChangeLog Required: No
Needs Doc: No	
Description	

History

#1 - 08/16/2018 07:08 AM - Vaibhav Chauhan

in review: <https://github.com/freenas/webui/pull/1152>

#2 - 08/16/2018 12:47 PM - Erin Clark

- Status changed from In Progress to Ready for Testing

#3 - 08/18/2018 08:56 AM - Dru Lavigne

- Subject changed from invalidate docker vm wizard when memory check fails to Enforce VM minimum memory check

- Needs Doc changed from Yes to No

- Needs Merging changed from Yes to No

#4 - 08/18/2018 08:56 AM - Dru Lavigne

- Subject changed from Enforce VM minimum memory check to Enforce VM minimum memory check in new UI

#5 - 08/24/2018 06:50 AM - Dru Lavigne

- Target version changed from Backlog to 11.2-BETA3

#6 - 08/28/2018 09:45 AM - Aaron St. John

- File `memory_docker_check.png` added

- Status changed from Ready for Testing to Passed Testing

- Needs QA changed from Yes to No

Tested on FreeNAS-11.2-MASTER-201808280901

In review of the PR it appears the change was only for a DockerVM.

Thus, my test method:

1. Begin creating a VM through the VM wizard and select docker host.
2. Get to the step where it checks CPU and Memory.
3. Try to enter something less than 2048.

4. Observe behaviour (see screenshot). Also, it will not let the user click Next while the memory is below the minimum of 2048.

#7 - 08/28/2018 09:48 AM - Dru Lavigne

- Status changed from *Passed Testing* to *Done*
